

# Solar Energy and the Future of the San Luis Valley

## QUESTIONNAIRE

(Contact information is optional/please remain anonymous if you prefer)

Name: \_\_\_\_\_ Affiliation: \_\_\_\_\_

Email: \_\_\_\_\_ Phone: \_\_\_\_\_

Mailing address: \_\_\_\_\_

---

1. What is your interest in solar development in the San Luis Valley?
2. What are your concerns about solar development in the San Luis Valley?
3. Have you ever been contacted by solar, utility, real estate or other companies or organizations regarding power development? If yes, would you be willing to share who contacted you and what was their interest?
4. Do you understand the differences between solar photovoltaic (PV) and Concentrated Solar thermal Power (CSP) technology? If not, what more would you like to know?
5. Do you understand the differences between “distributed” and “centralized” power generation? If not, what more would you like to know?

(over please)

6. What type (PV/CSP), scale (distributed/centralized) and/or mix of solar development would you like to see implemented in the San Luis Valley?

In 5 years?

In 15 years?

In 30 years?

7. Do you understand the relative costs, benefits and impacts of different types of solar power compared with other forms of energy development?

8. What additional information would be helpful to you?

9. Are you interested in working with the WPC and SLVEC?  Yes  No

If yes, how?

Advisor (area of expertise \_\_\_\_\_)

Community outreach/education

Renewable Energy Working Group  Business & economic development

Sustainability Working Group  Water user

Government

What are your "stakeholder" affiliations?  Conservation & the environment

Landowner

Communities

Rancher or farmer

Other? \_\_\_\_\_

Comments on the solar symposium and suggestions for future events: \_\_\_\_\_
